

National Alliance of Direct Support Professionals (NADSP E-Badge Training)

Relias offers online learning, staff compliance training, and continuing education for intellectual/developmental disability providers.

Relias Training Crosswalks are based on published accreditation standards. They are designed to assist organizations in the selection of courses from the Relias libraries to ensure and demonstrate staff competence according to the training standards. In some cases, it may be useful for customer organizations to develop training specific to the organization's individual needs.

General staff compliance trainings should be selected to ensure the organization meets OSHA and other regulatory requirements. Staff training is only one element of a successful survey and the Crosswalks are not meant to take the place of a careful review and evaluation of your program to the accreditation standards.

The courses listed are a representative sample of Relias courses. Select NADSP-approved modules may not be available in all libraries/packages; refer to your organization's offerings for available options. "NADSP Competency Area" indicates the competency areas specified by the National Alliance for Direct Support Professionals.

Relias has curricula that are accredited by NADSP to meet the required training hours to obtain the Accredited Education E-Badges. The course modules for each competency area and badge are suggested to support the learner in obtaining the skills necessary to obtain the badges for each Direct Support Professional (DSP) level. NADSP E-Badge Academy certification requirements:

*DSP-I Certification: individuals must earn 15 total NADSP E-Badges, which includes 50 hours of accredited education

*DSP-II Certification: individuals must earn DSP-I Certification and 30 total NADSP E-Badges, which includes 100 hours of accredited education (50 hours of which was previously earned as DSP-I)

*DSP-III Certification: individuals must earn DSP-II Certification and 50 total NADSP E-Badges

Disclaimer: The following constitutes Relias, LLC's recommendation of course work for each listed Crosswalk Measure. Relias does not make any guarantee that such course(s) will be accepted by the accrediting body(ies).
